

June 2022

Dear Professor Ahzegbobor P. Aizebeokhai

RE: ACE Impact Accreditation

Following on from your submission of the Stage Three Report, I am pleased to inform you that the following courses at Covenant University are now formally accredited:

- MSc in Biochemistry
- MPhil/PhD in Biochemistry
- PhD in Biochemistry

You are now able to publicise your accreditation; please see the guidelines on publicity and the accreditation logo for your use. Your programmes are awarded accreditation for 5 years from the date above.

Final Year Students from accredited programmes will receive one year of free membership of the Royal Society of Biology. This will open up networks at a crucial time when applying for jobs. Below is some further information about what it means to be a member of RSB:

The Royal Society of Biology is the leading professional body for the biological sciences in the United Kingdom. The Society represents over 17,500 biologists from all areas of the life sciences, as well as almost 100 organisations which make up the diverse landscape of biology in the UK and overseas. The Royal Society of Biology offers members unique opportunities to engage with the life sciences and share their passion for biology.

Whichever area of biology you wish to gain a career in, membership will help you:

- *Stay up to date with what is happening across the life sciences*
- *Gain additional recognition for your skills and experience*
- *Develop your professional network*
- *Demonstrate your support for the future of biology*

Any feedback you have on how you feel the process went would be much appreciated, as we are always looking to improve the programme as much as we can.

Do not hesitate to get in touch if you have any questions and congratulations once again.

Yours Sincerely

Associate Director
